

Aresti Committee Report

Once again, the CIVA Aresti Committee did not meet this year so we have nothing to report.

However as this committee has only met in the past when there has been a dispute between the Aresti System Company and CIVA, this must be viewed in a positive light.

CIVA has full use of the Aresti System for its contests, and utilises CIVA approved software.

We have a duty to report to the Aresti Company any changes approved at the CIVA Plenary meeting.

Currently the status of the Aresti Committee Chairman is uncertain due to possible changes within the Spanish Royal Aero Club. It is the prerogative of the Aresti Committee Chairman to call a meeting of the Committee as required.

To finalise, CIVA appreciates the work of the Aresti System Company and the use of its system at all our contests,

J L Gaillard

FAI/CIVA Aresti Committee
