

Report of the FPS Working Group

There have been no changes made to the FairPlay System since the proportional outlier assessments and update that was introduced for the 2019 season, that revision being confined to the stabilisation of pilot rankings through successive results calculations as more flight data is added into each programme data-set.

Throughout the 2021 CIVA championships and many other domestic events the system has performed effectively and as intended. The FPS Working Group has therefore maintained a watching brief, but there has been no reason for it to attend to any issues.

A handwritten signature in blue ink, which appears to read 'Nick Buckenham', is positioned above the printed name.
