In order to continue developing the Aerobatic Sport and to create a strong aerobatic center in this part of Europe, we would like to organize the 13th FAI European Open Advanced Aerobatic Championships and the 2nd FAI European Open Intermediate Aerobatic Championships 2023 at Clinceni, Romania. Having the two classes competing at the same time in the same location is an opportunity to grow the interest for the Intermediate category, which we consider is a good starting point for future Aerobatic Champions. This can also be a mean of reducing costs for the teams, by having one trip for both categories.
